The patch is designed to fill in and level the surface of the asphalt, but it still needs a good sealer to protect it.. Crack filling Crack filling is the placement of asphalt emulsion into non-working cracks to reduce water infiltration and to reinforce the adjacent pavement.. Note that we do mention sealcoat sealer We highly recommend sealcoating over the alligator patch.. Non-working cracks are horizontal and/or vertical movements in the crack less than 0.. Alligator Asphalt Repair Materials To repair alligator cracks in your blacktop asphalt driveway, you'll need alligator patch material, sealcoat sealer and a squeegee or asphalt brush.
